4. Requirements and Selection

Eligible students can apply if they comply with the requirements for each LL.M. EP they intend to apply to, specified in the Appendix 1: Requirements of this document. The applications that do not comply with the requirements specified in the Appendix 1 will not be considered.

An Academic Commission nominated by the Dean of the Undergraduate School will select students on the basis of a non-disputable evaluation.

The selection follows a 3-step process:

Step 1: The eligible candidates will be ranked after the analysis of their academic performance (credits 55%, weighted average grade 45%). The Academic Commission will rank eligible students and create the short list for the next step.

The academic performance will be calculated on the basis of the data available to the Student Office **by 9 February, 2027 at 10 a.m**. This date constitutes the final deadline for the collection of such information for the purposes of the selection process.

Applicants are responsible for ensuring that all relevant information is correctly recorded and therefore available for extraction from their student records by the above-mentioned date.

The University shall not be held responsible for any missing, incomplete, or not updated information that cannot be extracted from the student records by such deadline.

Step 2: An in-person interview will be carried out by a member of the Academic Commission and by International Degree Programs on **12 February, 2027.** The interview will focus on the motivation, the academic background and the previous international and/or professional experiences.
It is a key part of the selection process: in case a candidate is not considered suitable for the programme, they will not be selected regardless of the academic performance, the positioning in the applicants' ranking and the number of available slots.

Step 3: Partner universities will receive the shortlist of nominated students from Luiss, and retain final authority over the acceptance.

4.1. Notes for Students on International Mobility Programmes

The following provisions only apply to Luiss students currently participating in an international mobility program (i.e., Erasmus+, Bilateral Exchange).

For students whose exchange grades have not yet been recorded in their academic career, the weighted average grade will be calculated on the basis of the data available to the Student Office by 9 February, 2027 at 10 a.m.

The credits will be evaluated according to the additional documentation provided with the application (refer to Appendix 2 for further details).

Candidates who are abroad on an international mobility program can conduct their interviews remotely.

5. Application Procedure

Applications can be submitted from 8 January until 21 January, 2027 at 12:00 PM CET (midday). In order to apply, students must complete the application form and upload the required attachments in the web self-service area of the Luiss website[1]. Only applications accompanied by all documentation and received by the application deadline will be considered.

Students are encouraged to apply well in advance of the application deadline and to double-check the data entered in the application. If an error has occurred in the ranking of the preferences, applicants are required to flag it as soon as possible via email to International Degree Programs (international@luiss.it) no later than 29th January 2027. Please note that the request will be reviewed and evaluated, and as a result, approval is not guaranteed.

In case of doubts about the documents to upload or to get further information about the requested documents, students are invited to contact International Degree Programs (international@luiss.it) before the application deadline.

Students that might require special provisions during the mobility are invited to get in contact with International Degree Programs before applying to the programme. International Degree Programs reserves the right to request further details or documents to applicants.

6. Compatibility with Other International Programmes

6.1 Compatibility among the LL.M. Programmes

Eligible students are allowed to apply from a minimum of one (1) to a maximum of five (5) LL.M. Programmes among those included in this Call for Applications and will rank the Programmes according to their preferences. We strongly encourage applicants to apply only for the Programmes they have a real interest in and for which all requirements are met.

Students will be selected for only one LL.M. Programmes within their list of preferences and will be removed from the selection procedures of the other LL.M. Programmes.

Students who are not selected for any LL.M. Programme can remain in the waiting list of more than one LL.M. Programme. If they are recalled from the waiting list of any programme (regardless of their preference) and they confirm their participation, they will be subsequently removed from the other waiting lists.

Refusal or missing confirmation of the LL.M. Programme selection implies the official withdrawal from all the LL.M. Programmes in this Call.

[1] Students are required to carefully read the Application Instructions published in the program webpage.

6.2 Compatibility with the International Student Exchange Programme

Eligible students are allowed to apply to these Programmes and the International Student Exchange programme.

Students applying to both Calls who will be selected for the LL.M. Programme must confirm their participation to the programme within the established deadline as detailed in paragraph 8. Acceptance.

If selected students confirm their participation to the LL.M. Programme, they will be automatically excluded from the selection for the International Student Exchange program and will be removed from the candidates' list.

If selected students do not confirm their participation to the LL.M. Programme according to the rules explained in paragraph 8. Acceptance, they will remain eligible for the International Student Exchange programme.

Students who completed an International Student Exchange programme during previous years are eligible to apply to this Call.

6.3 Compatibility with ENGAGE.EU Programme

Please note that participation in the LL.M. Educational Programme may not be compatible with certain ENGAGE.EU mobility opportunities.
Students who are interested in both options are strongly advised to carefully review the academic calendars and consult the ENGAGE.EU Office (engage.eu@luiss.it) for confirmation before applying.

6.4 Privacy Notice

We encourage all applicants to review the Appendix 4, which includes important information about the privacy notice. Understanding these guidelines will help you stay informed about how your data is handled and protected throughout your studies.

7. Communication of results

In compliance with current provisions on personal data protection, rankings will not be published. Students will be informed of the result of their own application only. Information such as other candidates' position in the ranking will not be disclosed. Selected students will receive the communication via-email **by 17 February, 2027** (date may be subject to change) on their Luiss e-mail

account. Thus, students are strongly invited to check their Luiss email account every day while the selections are ongoing.

Following the first round of offers additional allocation rounds may take place. Students will receive an email by Monday, 22 February 2027, informing them of their selection results and next steps. There is no need to contact our office for updates in the meantime.

8. Acceptance

Selected students will be required to confirm their acceptance through written notification within one working day from the communication of results.

In case of refusal or missing notification by the deadline, the following candidate in order of waiting list will be recalled. Recalled students will be required to confirm their participation by written notice within one working day.

Any refusal submitted after a candidate has accepted the offer for a slot will be forwarded to the Deputy Rector for Rankings, Accreditations and Quality, who, in collaboration with the Deputy Rector for Education and Dean of the Undergraduate School and the Director of Academic Affairs, will assess the justification provided. Refusals deemed inadequately justified will be reported to the Graduation Commission.

9. Graduation Bonus

The participation and successful completion of an LL.M. programmes will provide additional points to the Final Grade of the Single Cycle Master's Degree, according to Luiss rules.
