## EDUCATION AND TRAINING

**29/08/2023 - CURRENT**

● **AgilePM: Agile Project Management Foundation Examination** APMG International

Website <https://www.credly.com/badges/b7bb4cc9-401e-4e22-bd75-d55e5216140a/print>

**2022 - 31/07/2025**

● **Certified Information System Security Professional (CISSP)**, Certification Number 973385

**2022 - 01/03/2025**

● **Certified Ethical Hacker (CEH)**, Certification Number ECC 1632045879

**30/06/2021**

● **Microsoft Technology Associate Networking Fundamentals**, Certification Number H883-4150

**2020**

● **Rapidminer Grand Master**,

**2015**

● **ISO 27001 lead Auditor Certified**

**2001 - 2003**

● **Ph.D. in Management Engineering Thesis "Mobile transactions security"**, Dipartimento di Informatica, Sistemi e Produzioni, Università degli Studi di Roma "Tor Vergata"

**2000 - 2001**

● **Postgraduate Specialization Diploma, Magister Artis of Business Management**, Dipartimento di Informatica, Sistemi e Produzioni, Università degli Studi di Roma "Tor Vergata"

**1998**

● **Certified Professional Engineer (PE) in Computer Engineering**

**1997**

● **B.S. and M.S. in Computer Engineering**, Università degli Studi di Roma. "La Sapienza"

### Academic Activities (Academic courses, Training, Research)

**11/09/2023 – 19/12/2023**

**Author and Instructor for Safari O'really online course**

---

Author of online course on OSINT for Beginners to be sold on O'really Safari learning platform

Link <https://www.oreilly.com/>

---

**05/10/2023 – CURRENT**

**Expert/Lecturer at Accademia di Cybersicurezza Lazio (ACL)**

---

Lecturer for Cryptography and Machine learning applied to criminal phenomena

Link <https://www.aclazio.it/>

---

**05/08/2023 – 30/08/2023**

**Council of Europe-CEPOL-TOP-COP project-Trainer (external expert) on "War crime digital investigations" for Ukranian Leas and agencies-Rzeszov**

---

**2023 – CURRENT**

**Co-Chair of EMISA network**

---

EU-MENA Information Sharing and Analysis Network (EMISA) is a network of EU/MENA experts of counter-terrorism. It has been set up by CEPOL CT-INFLOW project. I'm the co-chair of the Work Group 7, focused on "Cyber threats", supporting experts in the prevention, investigation and fight against cyber threats connected with terrorism.

---

Link <https://www.cepol.europa.eu/>

**04/07/2022 – 09/07/2022**

**CEPOL-Training Expert for OSINT techniques trainer for European LEAs, ONLINE**

---

Link <https://www.cepol.europa.eu/>

**06/03/2022 – 10/03/2022**

**CEPOL -CT-INFLOW Regional training on Cyber terrorism, Moderator and Main Lecturer, Budapest**

---

Link <https://www.cepol.europa.eu/>

**15/10/2021 – 18/10/2021**

**CEPOL-CT-INFLOW project, Training Expert for "Applied Cryptography" course**

---

Link <https://www.cepol.europa.eu/projects/ctinflow>

**2021 – 2021**

**TOP COP CEPOL webinars, "Advanced OSINT Techniques" webinar, Machine learning techniques to detect fake news" webinar**

---

**16/10/2020 – 18/03/2021**

**LEICA (Law enforcement in Central Asia) Project- Expert in cybercrime investigations on use of the internet for terrorism and extremism purposes - OSINT Course co-author**

---

European Union funded project to Civipol, ISEM, supported by Interpol  
<https://www.project-leica.eu/>

Link <https://www.project-leica.eu/>

**2018**

**"Darknet patrolling and Analisis" for Balcanian LEAs and Agencies. Drug Trafficking Investigation project, (Albania). Contacted by UNODC; Expert Trainer**

---

**2016 – 14/12/2022**

**European Commission External Expert for the MSCA (Marie Skłodowska-Curie Actions), research projects evaluation/review (in the area of security economics)**

---

Every single call required to evaluate 3-10 projects to be funded in REA-ECOSOC area.

Link <https://marie-sklodowska-curie-actions.ec.europa.eu/>

**2015 – CURRENT**

**University "La Sapienza" of Rome, Master in Sicurezza delle Informazioni ed informazione Strategica, Course of Crime data Science; Lecturer**

---

**2015 – 2019**

**Counterterrorism Project in MENA at CEPOL, European Police College, on cyberterrorism threats, "OSINT", Darknet patrolling and Analisis and "Crime data science" for Jordanian , Lebanese, Tunisian, Turkish, Algerian, and Kosovo LEAs**

---

**2014 – 2018**

**European Commission Expert, consultant for the H2020 -REA research project evaluation/review, in the area of ICT-Fighting against cybercrime and Digital Security Systems**

---

Every single call required to evaluate 2-5 research/innovation projects to be funded in REA ECOSOC.

**2014 – 2016**

**Italian Ministry of research consultant for industrial research project evaluation/review**

---

**2013 – 2016**

**European Commission Expert for the DG-HOME ISEC (Fighting against Crime and Terrorism) program projects evaluation/review**

---

Every single call required to evaluate 2-5 innovation projects to be funded.

**2010 – 2011**

**Wireless LAN/VoIP European Cybercrime Training and Educational Group Trainer, hosted by BKA (Bundeskriminalant)**

---

**2003 – 2013**

**"Information System Security and Criptography" Course at Faculty of Engineering Computer Science, Università degli Studi "Tor Vergata", Adjunt Professor**

---

**2003 – 2008**

**"Computer Crime" Course at "La Sapienza" University Study of Rome , 2nd level Master in "Theories and Models for Criminal Investigations"**

---

**2009 - 2016**

**ENISA (European Network and Information Security Agency), Expert consultant for new technologies threats**

---

**2006 - 2012**

**MIAT forensic open source project (closed in 2013), Director**

---

MIAT (Mobile Internal Acquisition Tool, started in 2006) is a forensic tool designed for extracting files from smartphones running on Windows Mobile and Symbian operating systems, developed by Gianluigi Me and Alessandro Di Stefano for Symbian operating system. It includes also MIAT-WM5. developed with Fabio Dellutri and Vittorio Ottaviani for Windows Mobile, focuses on acquiring data from a mobile device's internal storage memory and copying it to an external removable memory. The tool facilitates fast and smart forensic analysis results for smartphones, contributing to efficient digital investigations. This project has received research and innovation funds on a public call from FILAS-Regione Lazio.

Link <https://dfwrs.org/presentation/an-overall-assessment-of-mobile-internal-acquisition-tool/>

**10/06/2006 - 11/11/2009**

**Virtual Parent**

---

VIRTUAL PARENT is software that parents could install on their PC to be notified, in real time, of the dangers that their minor child may encounter when using Instant Messaging (chat). In particular, the software controlled the message traffic of the most popular and used program of that time, Microsoft Messenger.

The VIRTUAL PARENT project is the result of the collaboration of the Tor Vergata University - Department of IT, Systems and Protection - CNR - "Mauro Picone" Applications and Computing Institute, ECPAT-Italia, Land srl, financed with funds from the PITT Program by Filas S.p.a. , Finanziaria Lazio Sviluppo. Part of the sales of the software have been donated to ECPAT-Italia.

The software did not censor and did not prevent the minor's Internet activity, but allowed the adult, even remotely and in real time to check the children's communications, also offering the possibility of tracing the sender of the message received".
